

ROAD AIR & OIL FILTER RANGE

YOUR TRUSTED ENGINE PARTNER

MIW OIL AND AIR FILTERS - JAPANESE TECHNOLOGY

Developed in Shizuoka, Japan for OEM applications and after market performance, replacement parts. MIW brand uses "Multi Stage Filtration" to ensure the removal of all hazardous particles and impurities from the engine oil. Incorporating an oil pressure stabilizer system, to provide a smooth flow of cleaner and more refined oil to the engine. The same meticulous detail is given to the quality air filter components.

The maximum protection of your engine is guaranteed with MIW oil and air filters.

ROAD AIR FILTERS STATE OF ART QUALITY

The MIW brand (Also known as Meiwa Company Ltd) has been a leader in filter technology since the early 70's and is one of the worlds most appreciated oil and air filter product lines for motorcycles. Today MIW becomes stronger than ever with a new range for all popular motorcycles .

Choosing MIW as your filtration partner, is choosing for one of the most experience brands in the filtration application field.

USP'S AIR RANGE

ROAD OIL FILTERS STATE OF ART QUALITY

MIW oil filters are produced with a vision to provide the **highest standards** required by modern motorcycles. Our chosen method of filtration is resin impregnated micropore paper. Using a high grade cotton linter fibre, to give unparalleled durability during filtration. The cotton linter element composes of fibre strands, with differing thicknesses. With thicker strands on the outer wall of the filter, to catch larger metallic particles and thinner strands making up the inner wall, catching even the smallest particles. The multi strand microscopic fibers provide superb porosity for oil flow, even after contamination.

USP'S OIL RANGE

- MIW has the **biggest motorcycle filter range** on the market with 800+ references.
- Japanese quality resulting in **increased engine life**.
- For a **wide range of models** of any production year.
